## VISION

Williams is a desirable, livable, and sustainable hometown where you want to live, work, and play.

## MISSION

Williams will provide high-quality services in a fiscally sound manner through proactive planning, exceptional staff, and strong community relationships.

## GOALS

**Collaboration:** Williams will build connections with the members of our community, encompassing the richness and diversity of our City. We will respond to growing service demands through strategic partnerships and innovative collaboration.

**Growth/Planning:** To achieve the future we envision, Williams will guide growth and not be guided by it. With a well-planned, responsible approach to development, we will ensure the community is vibrant and sustainable.

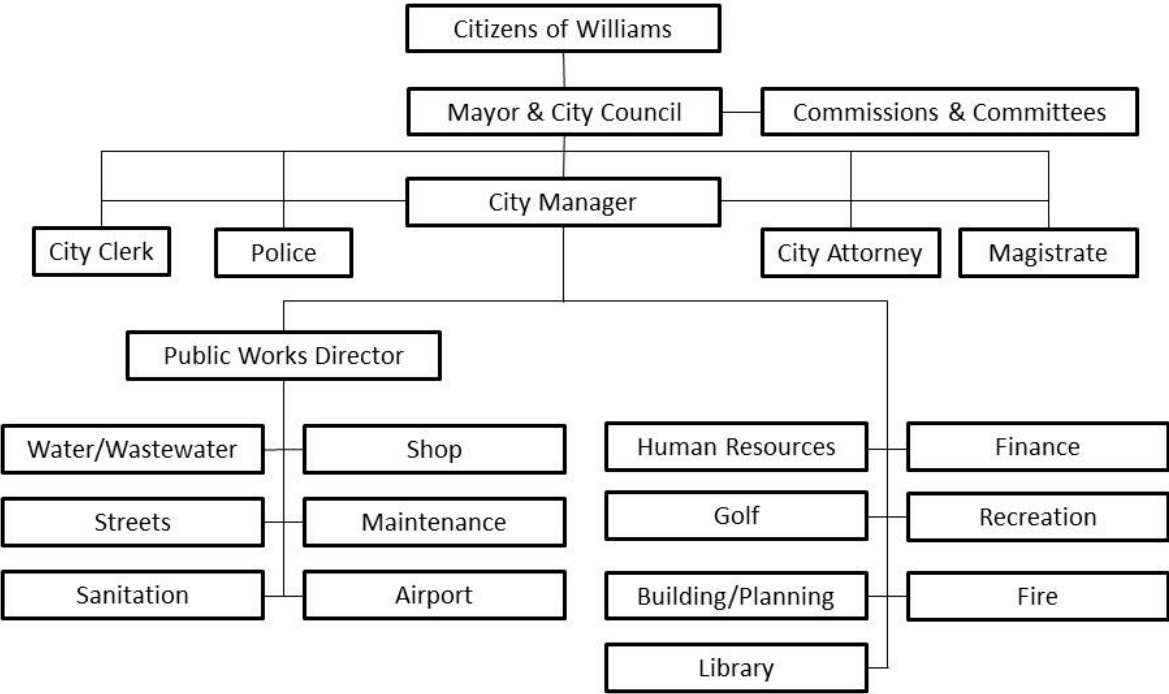

**Economic Development:** Williams will recruit and retain businesses that will create a dynamic, diversified local economy. We will capitalize on opportunities through bold and creative economic development strategies.

**Housing:** Williams will initiate programs, policies, and partnerships that lead to the development of quality housing choices that meet the needs of our citizens, so that those who work here can also live here.

**Infrastructure:** Williams will provide and preserve quality infrastructure for our community. We will develop and implement realistic long-term plans to meet current and future infrastructure needs.

## Message from the City Manager

Mayor Moore, City Council, and the Citizens of Williams,

It is my pleasure to present the Fiscal Year 2016 Budget.

The Budget, as much as it is a plan for the year ahead, is also a gauge of where the City is financially, and it could be argued, of how well the organization is doing on many different fronts. If that is true, this Budget speaks volumes about where we are and just how far we have come in the last few years of rebuilding. Several years ago, on the heels of the Great Recession, the City struggled to cover even basic needs such as meeting debt repayment obligations every year. A few short years later, due to the wise guidance of the City Council, tireless work of City Staff, and the support of the community, the City is in a much better place, financially and otherwise. On the financial front, not only will we be able to cover our debt repayment obligations, but we are on track to begin making long-delayed major capital investments in infrastructure and equipment. On other fronts, long-needed investment in various efficiencies and reinvestment in our most critical resource, our people, are also included in the FY 16 Budget. If the Budget is to be used as an indicator of organizational strength and health, the FY 16 Budget is an encouraging report of progress.

Brandon Buchanan  
City Manager

The encouraging statement made by the Budget has not come about by chance. Many people have worked very hard, for years, to make it possible.

The City Council has had to, and will continue to, make sometimes difficult decisions that may not be popular in the short-term but are necessary for the long-term success of the City. For example, this Budget is predicated, in part, on a relatively significant rate increase in the Water and Wastewater Fund. This rate increase, although a difficult decision to make, is necessary as the City works to begin rebuilding its infrastructure. For many years, the Electric Fund subsidized the Water and Wastewater Funds, prohibiting any reinvestment back into the electric system. While that method allowed rates to be kept artificially low, it prohibited any reinvestment back into the electric system. That subsidy allowed the City to cover O&M costs in Water and Wastewater, but was not sufficient enough to provide for any significant capital improvements in those Funds. The result is that all of the utilities (electric, water, and wastewater) now need major investment urgently. The proposed rate increase is the first step in straightening out those utility funds to a point that they will accommodate the now critical need for reinvestment. While not an easy decision, the increase is vital to putting us back on track to sustainable infrastructure.

Staff must also be commended for their part in getting the City where it is today. Their sacrifice and tireless work on so many fronts has, in so many unacknowledged ways, made the progress possible. Through thick and thin, this group of professionals has not wavered in their dedication or service to the community. They have done so often without formal recognition or the tools they need. This Budget addressed that contribution and recognizes the valuable resource that is our Staff. This Budget includes

a COLA and possible merit-based pay increase for each employee. These will allow us to be competitive in attracting and retaining the quality Staff we need. It also includes investment in tools that are long overdue. For example, a new Information System will wildly increase communication and efficiency among the majority of Departments and with the community as it is implemented early in the new Budget year. These investments will pay dividends long into the future and will only improve the pace at which our organization is improving into the future.

The City is well on-track to a very bright future. That future is not too distant either. Within a few short years, the City should have adequate funding to support a rather robust Capital Improvement Plan each year. Contrast this to just a few years ago and it is easy to see just how far we have come in a relatively short period of time. Continuing on this trajectory, of course, is dependent on many factors. With the continued dedication and hard-work of all those within the organization from City Council Members to front-line Staff, I have no doubt that the trajectory will hold steady and that our service to our community will only get better in the years to come.

Sincerely,

## Accounting Structure and Basis

The governmental environment differs from that of business enterprises; however, the underlying accounting policies share many characteristics with private-sector accounting. The principles for financial accounting and reporting for municipalities is established by the Governmental Accounting Standards Board (GASB). The accounting of sources and uses is separated into various fund types. Each fund is a self-balancing accounting entity reporting the assets, liabilities, equity and performance of the fund. The types of funds used by the City of Williams and their purposes are presented below.

### **Fund Structure:**

**Governmental Funds** – Uses the modified accrual basis of accounting and budgeting.

***General Fund*** – This fund is used to account for basic governmental services supported mainly by local sales taxes. Services accounted for within this fund included police and fire services, municipal court services, parks and recreation programs, community development departments and general administration.

***Special Revenue*** – Special revenue funds account for the proceeds of specific revenues that are legally restricted to expenditure for specific purposes. For example, Highway Urban Revenue (HURF funds) may only be used for street and road activities. Grant Funds are also included as a Special Revenue Fund.

***Capital Projects*** – These funds account for acquisition and construction of major capital facilities, except enterprise fund projects which are included within Proprietary Funds. Examples of capital projects included within the governmental capital projects funds include the Impact Fee Fund, Capital Projects Fund and the Flood Control District Fund.

**Proprietary Funds** – Uses the accrual basis of accounting and budgeting, except that budgeted capital outlay items are treated as assets for accounting purposes and not reflected as expenditures.

***Enterprise Funds*** – These funds account for operations financed primarily by user fees and are operated in a manner similar to private business. These funds include the Electric, Water, Sewer Sanitation and Golf Funds.

### **Basis of Accounting and Budgeting of Funds:**

**Modified Accrual** – Revenues are recognized when measurable and available (revenue received during fiscal year or within 60 days of year-end).

**Accrual** – Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flow.

## Budget Overview

We are pleased to present the budget for Fiscal Year 2015/2016. The Budget was prepared to provide a budget that is fiscally sound and lays the foundation for a strong financial future.

The budget continues to emphasize the City's commitment to provide efficient and cost effective services.

## Revenues

### Revenues Property Tax

Under Arizona Law there are two primary valuation bases: Primary and Secondary. The primary (limited) assessed valuation is used when levying for maintenance and operation of cities, counties, school districts, community college districts, and the state. The secondary (full cash) assessed valuation is used when levying for debt retirement, voter-approved budget overrides, and maintenance and operation of special service districts.

## Swimming Pool

### **DEPARTMENT DESCRIPTION**

The Recreation Department oversees the operation of the Williams Aquatic Center. The Williams Aquatic Center is currently operated during the summer months. During the summer season the pool offers swim lessons, water aerobics, public swim sessions, sessions set aside weekly for the special needs campers from Camp Civitan and session times dedicated, twice a week, to the City of Williams Summer Splash Rec Program.

The pool staff is responsible for providing healthy, fun, safe programs and activities for the community within the pool facility.

The pool was maintained at such a high level of cleanliness and equipment maintenance, during the recent winter hibernation, that it took very little time and effort to bring the facility up and ready it for the 2014 swim season.

### **2015-2016 OBJECTIVES**

- Maintain the pool within budget and Water Restriction constraints
- Identify and install a new “fun factor” element to increase youth usage of the facility

### **2014-2015 ACCOMPLISHMENTS**

- Maintained operations with budget
- Created a “Cannonball Corner” and increased youth attraction
- Increased usage to the highest level since facility transitioned to seasonal operations

## Fire Department

### **DEPARTMENT DESCRIPTION**

The Williams Volunteer Fire Department is an all-volunteer fire department. They are budgeted to have 30 volunteers and current have 22 active and 6 support members. The department responded to over 100 all hazards incidents (fire, rescue, hazmat) in and around the city last year. The department has two stations with four structure engines, two water tenders, one wild land engine, one rescue vehicle, one utility vehicle and two parade/prevention engines.

Department provides all hazard incident mitigation in and around the community, assists local, state, and federal fire /emergency management agencies in these duties, performs various community functions like: safety fairs, fire prevention, fire prevention golf tournament, parades, etc.

Fire prevention education/community risk management is important to the community because it teaches the community on how to prevent incidents/safety hazards and also how to react to incidents/safety hazards should they occur.

### **2015-2016 OBJECTIVES**

- Replace the ladder on Engine 8 with a 40 foot ladder to accommodate new development
- Add ladder access system to engine 8
- Continue to attract quality volunteers and increase the number of firefighters on the Department

### **2014-2015 ACCOMPLISHMENTS**

- Received AFG grant to purchase Wild Land equipment and turnout gear
- Added a training prop for confined space training at Station 2
- Completed security fencing around Station 2

## Electric System

### DEPARTMENT DESCRIPTION

The City of Williams purchased the Electric Distribution System in 1992. The City contracts with Arizona Public Service to operate the system. Net Income from the system has been pledged to help the city drill wells, upgrade the water plant, and build a new wastewater treatment plant.

### 2015-2016 OBJECTIVES

- Construct grant-funded upgrade to Garland Prairie distribution line
- Renegotiate O&M contract per APS request
- Work on obtaining a portion of the Hoover Dam Preference Power allocation.
- Continue voltage conversion projects

### 2014-2015 ACCOMPLISHMENTS

- Built new Kaibab substation, significantly increasing capacity and allowing conversion projects to continue
- Completed tree maintenance project to protect power lines (was 5 years past due)
- Completed another phase of the voltage conversion project

## Water Department

### **DEPARTMENT DESCRIPTION**

The City of Williams Water Department provides the community with potable water from five lakes and two wells through various tanks, valves, and miles of pipeline.

The Department, via a contracted operator, maintains the Water Treatment Plant to ensure the highest quality water to customers. Department employees assist with routine testing to ensure compliance with permit requirements.

The Department operates and maintains the distribution system, service connections, valves, and hydrants.

### **2015-2016 OBJECTIVES**

- Implement rate increase to reduce dependency on Electric Fund transfers
- Continue developing water supply with new sources and better management of existing sources
- Perform strategic main/service replacement in conjunction with Street Maintenance program when possible
- Deploy WIFA funds to complete implementation of the meter replacement program to capture full revenues

### **2014-2015 ACCOMPLISHMENTS**

- Extensive work to salvage Dogtown #1 Well
- Began extensive water meter replacement program
- Surveyed and developed location for new Sweetwater well

## Wastewater Department

### **DEPARTMENT DESCRIPTION**

The Wastewater Treatment Facility was constructed to comply with discharge requirements issued by the State of Arizona. Waters discharged from a treatment facility into receiving waters are regulated by the State environmental agencies. Continual monitoring, sampling, and reporting are required to meet the health and safety guidelines.

The Wastewater Department operates a collection system and assists a contract operator with the plant. The contractor and staff conduct rigorous testing and sampling of effluent to ensure permit compliance. The Department also coordinates the use of effluent water through standpipe sales and Golf Course usage.

### **2015-2016 OBJECTIVES**

- Complete the “Clean Closure” of the lagoons at the Wastewater Treatment Plant and convert lagoons to treated effluent storage for golf course/sale
- Convert plant process water from potable to effluent water
- Continue reducing chemical usage with adjustments to treatment process
- Reduce sampling costs with strategic changes to operating permit

### **2014-2015 ACCOMPLISHMENTS**

- Reduced potable water used in plant processes
- Adjusted treatment process to reduce chemical usage

## Sanitation

### **DEPARTMENT DESCRIPTION**

The Sanitation Department is responsible for picking up residential and business trash and recycles daily. It also operates a Transfer Station where trash and recycle can be dropped off by private citizens and businesses. The Transfer Station is partially funded by Coconino County, allowing County residents access to its services. The department provides service seven days a week. In addition to picking up trash/recycle, the Department transports the solid waste to the Waste Management transfer station facility. The Department also provides support for all scheduled events and assists with snow removal.

### **2015-2016 OBJECTIVES**

- Improve routine maintenance on trucks to extend service life

### **2014-2015 ACCOMPLISHMENTS**

- Built a new weigh station building and related equipment to improve appearance and functionality of facility
- Implemented new billing software and hardware (increased customer service abilities)
- Continued clean-up and organization of facility with new storage options
- Strengthened cooperation with other agencies (County Clean-Up Days)
- Implemented roll-off rental program
- Assisted in expanding available resources when possible

## Golf Course

### **DEPARTMENT DESCRIPTION**

The Municipal Golf Course, Elephant Rocks at Williams is a 18 hole course. At 7000 feet above sea level, the course meanders its way through stands of large Ponderosa pines. There has been a course here since the 1920's but it was not until 1990, when the course was reconfigured by Gary Panks. In 2000, Gary Panks designed an additional nine holes around the Highland Meadow Subdivision.

The City is responsible for the maintenance of the course, buildings, and equipment. The City contracts with a Golf Professional to oversee the operation of the clubhouse including food and beverage and facility rental.

### **2015-2016 OBJECTIVES**

- Maintain pristine condition of golf course and related facilities
- Upgrade irrigation pump house equipment
- Continue replacing aging sprinkler system

### **2014-2015 ACCOMPLISHMENTS**

- Replaced portions of aging sprinkler system
- Managed the course without supplemental water from Cataract due to water restrictions
- Assisted other Departments with various projects including:
  - New furniture for Visitors Centers
  - New multi-purpose field at Cureton Park
- Added to course facilities (new tee boxes)

## Northside Sewer District # 2

The City issued special assessment debt with government commitment in 1995 and formed the Northside Sewer District #2. The proceeds were used to construct a sanitary sewer for the property owner in the district. The debt was secured by the lien upon the lots, tracts and parcels of land within the district.

This Special Assessment debt was paid-in-full during fiscal year 2013-2014. This debt is retired and debt service for this purpose will no longer need to be included in the budget.

## Glossary

**ACCRUAL BASIS.** Accounting basis which records the effect of transactions in the period in which they were earned or liability incurred, rather than the period the cash is received or paid.

**ANNUAL BUDGET.** A budget that applies to a single fiscal year (July 1 – June30).

**APPROPRIATION.** A legal authorization granted by the City Council to incur expenditures and obligations for a specific period.

**ASSESSED VALUATION.** A valuation upon real estate as a basis for levying taxes.

**ASSET.** Anything having a commercial or exchange value.

**BASIS OF ACCOUNTING.** A term used to refer to when revenues, expenditures, transfers and their related assets and liabilities are recognized and reported within the financial statements. Also refer to Accrual and Modified Accrual. See the Accounting Structure and Basis section for more information.

**CAPITAL IMPROVEMENTS PROGRAM.** Also referred to as CIP. A separate budgetary process that occurs to appropriate funds for projects that are capital in nature and generally financed by long-term debt.

**CAPITAL ASSET.** Long-lived tangible assets obtained as a result of capital outlay or other event such as a donation. Examples include land, buildings, improvements and equipment.

**CAPITAL OUTLAY.** Expenditures resulting in the addition or acquisition of assets to the City, generally in excess of \$5,000 with a service life of greater than one year.

**CONSTANT DOLLARS.** Dollars adjusted for inflation using a specified year as the base year in order to ascertain actual purchasing power over a period of time.

**DEBT.** An obligation of the City resulting from borrowing money in the form of bonds or capital leases. Can also refer to unpaid purchases of goods and services.

**DEBT LIMIT.** The maximum amount of debt legally permitted.

**DEBT SERVICE.** The payment of principal and interest on outstanding debt.

**DEFERRED REVENUE.** Amounts for which asset recognition has been met, but for which revenue recognition has not been met. For example, under the modified accrual basis of accounting, amounts that are measurable, but not available (not collected within 60 days after fiscal year end).

**DEFICIT.** Relating to financial position (1) excess of liabilities of a fund over its assets. Relating to operations (2) the excess of actual expenditures over actual revenues during a fiscal year.

**DEFICIT SPENDING.** Excess of expenditures over revenue. The net loss lowers fund balance.
